3 year (limited)

► **ADA Compliant**

**Benefits**

- "Touch-free" operation improves handwashing hygiene
- Economical pre-measured soap dispensing saves soap and money
- Each easily installable soap refill cartridge features an integral soap path, providing a renewed mechanism for deliver with every soap replacement
- Flashing "red" light indicates soap replacement required for continuous soap dispensing
- Flashing "yellow" light indicates low battery, promotes continuous operation
- Encourages handwashing for improved sanitary protection
- Three-year Warranty
- Eliminates "untidiness" from refillable containers

# ESD-200 ESD-250

► **Description**

Sensor Operated Electronic Soap Dispenser.

► **Models**

- ESD-200 Plug-in Transformer Powered
- ESD-250 Battery Powered

**OPERATION**

As the user's hands enter the beam's effective range, the beam is reflected back into the sensor receiver and activates the solenoid valve allowing a single soap application to flow from the spout.

- Flashing "red" light in the sensor window indicates low refill
- Flashing "yellow" light in the sensor window indicates low battery (Model ESD-250 only)

**SOAP REPLACEMENT**

When the soap Bottle is empty, a new Bottle must be used. The Bottle furnished with the unit is not designed to be refilled. Altering the Bottle and refilling it with soap will void the warranty of the product.

**Soap Information**

Replace with Sloan Part No. ESD-217 (800 ml. Bottle)

Can also be replaced with TC® OneShot® Soap Bottles (TC Stock #401311)

Models ESD-2085 and ESD-2080 Soap  
Dispenser and Faucet Combination
